-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on amendment dated 10/29/07.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 8-9, 11-27, 50-51, and 53-55 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- In claim 1, there is not relationship between “a structure” and a printhead....”. Specically, it is not clear how all those limitations of the structure are relative or are connected to the printhead.
- In claim 2, there is no relationship between an ink recipient and a structure and a printhead. It is unclear as to how the ink recipient is connected to the printhead and the structure.
- In claim 21, there's no relationship between the ink receiving cavity and the printhead and the structure.
- In claims 53-55, there's no relationship between the structure and the printhead. It is not clear how the structure is connected to the printhead.
- Claims depending on claims 1, 2, 7, 21, and 53-55 are also rejected.

***Response to Arguments***

Applicant's arguments filed 10/29/07 have been fully considered but they are not persuasive.

- claim 1, the applicant argues that two recited elements are associated with one another via the media path. This is true, but there is no structural connection between the printhead and the structure. As claimed, the printhead and the structure are parallel to each other. It is not clear or known how they are directly connected to each other.
- Claim 2, similarly, there is no connection between the ink recipient and the printhead and the structure. It is not clear or known where the ink recipient is in relative to the printhead or the structure.
- Claim 21, it is not clear or known how the ink receiving cavity is located, as there is no connection between it and the printhead, the structure, or anything else for that matter.
- Claim 53, similar to claim 1.
- Claim 54, similar to claim 2.
- Claim 55, similar to claim 21.

As for claim 28, the applicant requested that it be rejoined and allowed, since claim 1 is allowable. However, claim 1 remains rejected under 112, 2<sup>nd</sup> paragraph rejections. Moreover, claim 28 was not part of the restriction election, as stated in the examiner's previous restriction requirement.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
